

CBI – Transforming Trade Together

CBI is the centre for the promotion of sustainable production and trade between low- and middle-income countries and the Netherlands and Europe. We partner with small and medium-sized enterprises (SMEs) and their ecosystems to strengthen their social and environmental sustainability.

Over 55 years, CBI has partnered with more than 10,000 SMEs across 70 countries on their path to the Dutch and European market.

CBI is part of the Netherlands Enterprise Agency and commissioned by the Netherlands Ministry of Foreign Affairs.

CBI

Transforming Trade Together

What we offer

Market Information

Free, in-depth market studies on Dutch and European market trends and market access requirements. This market knowledge is converted into practical, actionable input for SMEs in low- and middle-income countries.

Scan for market information

Projects

Multi-year projects that tackle social and environmental sustainability challenges at the sector level, connecting SME exporters to Dutch and European buyers and building sustainable trade relationships.
