# Ghana. Where Sun Turns Fruit Gold

Ghana lies on the Gulf of Guinea, where fertile soils, steady sunshine and seasonal rains shape bright, true-to-fruit flavour. Every slice reflects the work of dedicated farmers and efforts of young people who are continuing traditions.

## Why choose Ghana?

- **Keitt mango:** premium dried mango – soft, non-fibrous and clean snack
- **Sugarloaf pineapple:** bright, natural sweetness with a true tropical profile
- **Clean bite:** no sugar added, fruit only
- **Variety of options:** natural, with prolonged shelf life, organic. Papaya and coconut too
- **Specification-friendly:** clear cuts and moisture targets; strong flavour
- **Reliability:** straightforward origin with responsive teams

## About the project

CBI's Ghana Dried Fruits programme is set to transform the landscape of small and medium-sized enterprises (SMEs) in the dried fruit sector. By facilitating joint export shipments, this initiative aims to empower selected SMEs, fostering growth and creating job opportunities for the Ghanaian youth.

## About CBI

CBI is part of the Netherlands Enterprise Agency and is funded by the Netherlands Ministry of Foreign Affairs.

Our work is focused on supporting sustainable and inclusive growth in our partner countries through market-driven approaches. With over 50 years of experience, we have worked with more than 10,000 SMEs from 70 countries, connecting them to buyers or partners in the European market. We collaborate with over 250 business support organisations and our extensive network of international experts to bring a wide range of expertise to our projects. This enables us to effectively support sustainable, long-term change at the sector level.

For more information about CBI, go to <https://www.cbi.eu/>

## AGROPAL West Africa

**AGROPAL West Africa is an impact-driven agribusiness specializing in the processing and marketing of tropical fruits - including mangoes, pineapples, coconut, papaya, and bananas - grown in West Africa for international markets. In Ghana, AGROPAL ranks among the top three producers of dried fruits, exporting high-quality, competitively priced products across Europe.**

Committed to quality, AGROPAL operates under hygienic conditions and holds HACCP, Organic, IFS and BRCGS certification.

Sustainability is at the core of AGROPAL's business model. The company has implemented innovative measures such as utilizing agricultural waste to generate energy and compost, as well as reusing wastewater, minimizing its environmental footprint.

AGROPAL's operations provide vital economic support to over 500 young people - particularly women - in communities within and around its area of operation. Additionally, the company creates market opportunities for more than 2,000 farmers across West Africa.

## Benyima Farms

Benyima Farms Limited is a proud Ghanaian agribusiness, specializing in premium freeze dried tropical fruits and natural fruit products. Our mission is to deliver healthy, sustainable, and delicious snacks to global and local consumers. We harness the rich biodiversity and superior taste of Ghana's mangoes, pineapples, soursop, and more. We have a strong commitment to food safety, traceability and sustainability. We are Rainforest Alliance certified, ensuring our products meet international quality standards.

Benyima Farms works closely with smallholder farmers to create inclusive value chains, while investing in cutting-edge freeze drying technology to preserve nutrients, extend shelf life, and reduce post-harvest losses. Our products are ideal for retail, food service, and private label markets, and cater to health-conscious consumers, vegans, fitness enthusiasts, and the African diaspora. Whether through export markets or local retail channels, we are transforming tropical fruits into globally competitive snacks — one freeze dried bite at a time.

# Bodukwan Multi Fruit Processing

Bodukwan Multi Fruit is a premier producer of high-quality fruit juices, concentrates, and dried fruit snacks, proudly based in Sabin-Akrofrom, Kumasi, Ghana. Established in 2020 as part of the Bodukwan Holding Limited Company, we leverage the rich bounty of tropical fruits from Ghana and the wider West African region.

With an installed processing capacity of 3 metric tonnes per hour, our factory transforms fresh mangoes, pineapples, watermelons, coconuts, tomatoes, and more into delicious, nutritious products tailored for both local and international markets.

Our mission is to promote health and wellness by delivering premium fruit products made with sustainable practices, innovative techniques, and uncompromising quality.

Bodukwan Multi Fruit - Harnessing the bounty of tropical fruits for health and wellness.

# Fruveg Farms

## Fruveg Farms Ltd. Co. – VivaSnax: Naturally Sweet, Grown in Ghana

Fruveg Farms is a sustainability-driven agribusiness based in Ghana, producing premium dried fruits under the VivaSnax brand. We collaborate closely with smallholder farmers to cultivate and process tropical fruits such as mango, pineapple, papaya, and coconut. We use innovative hybrid solar-electric drying technology, to preserve nutrients, flavor, and quality.

VivaSnax represents eco-conscious snacking: clean-label, non-GMO, and free from added sugars or preservatives. Our commitment to bio-circularity means repurposing fruit waste into animal feed, compost and detergents. Even pineapple leaf fibers are used for sustainable textiles.

At Fruveg Farms, we transform abundance into impact by sourcing locally and empowering rural women and youth, with value addition training, reducing post-harvest losses and boosting community incomes.

Whether you seek healthy retail snacks, bulk ingredients, or private label options - VivaSnax delivers the sun-kissed taste of Ghana — naturally sweet, responsibly grown, and export-ready.

## GKV Foods

**GKV Foods Ltd is a leading Ghanaian agro-processor based in the Western Region. We specialize in transforming locally sourced coconuts and cashews into high-quality, natural products such as coconut oil, water, milk, chips, desiccated coconut, charcoal, cashew kernels, and other dried fruits.**

Guided by a zero-waste philosophy, we maximize the use of every part of the raw material, to ensure sustainability and environmental responsibility. Certified by the Ghana FDA and GSA, we uphold stringent quality standards, with FSSC 22000 and Organic certifications pending renewal.

We empower local communities through partnerships with over 300 smallholder farmers - more than 65% of whom are women - by providing training, support, and stable markets. This commitment drives rural development, creates jobs, and builds a resilient supply chain.

GKV currently supplies 8 major Ghanaian retailers and exports to Canada, Morocco, Turkey, Nigeria, and Martinique. Driven by innovation, we aim to expand into European markets and achieve 95% export volume by 2027.

# Groital

Groital benefits from Ghana's unique climate conditions for some of the best-tasting and sweetest tropical fruits, requiring no added sugars or preservatives. The true distinction lies in the dedication to purity. Our end-to-end traceability tools, available as a QR code on every box, provide a transparent story of each product, from farm to customer. Our software totally eliminates the use of paper for record keeping, providing client access to audits including real-time food safety, production and compliance records.

Our dried pineapples are completely natural, free from any added sugars or sweeteners. Every bite delivers the genuine taste of the tropics, showcasing the natural sweetness straight from the fruit itself.

Approximately 200 tons of dried pineapple are produced annually, with the process starting by selecting only fully mature pineapples known for their natural sweetness. This careful selection ensures that the pineapples are up to 10% sweeter than other dried varieties, all without the need for added sugars.

Indulge in the remarkable sweetness of Groital's dried pineapples, a product that reflects an unwavering commitment to providing the finest, naturally sweetened tropical treats.

# Integrated Tamale Fruit Company

**Integrated Tamale Fruit Company (ITFC Ltd) is a limited liability company and a wholly-owned subsidiary of African Tiger Holding Limited (ATHL). Incorporated in 1999 under Ghana Company code, ITFC's activities include the cultivation, nursing and marketing of grafted mango and mango seedlings as well as the promotion of indigenous species of trees.**

Over time, the company has shifted its strategic focus to the processing of mango into dried mango and mango puree. Our mango drying facility has recently been expanded to a capacity of 1000kg of dried mango per day from 600kg per day.

Currently the Factory operates full time only during the mango season, producing an average of 30,000 kilogram of dried mango annually. At full capacity, the company can produce up to 100,000 kilogram of dried mango annually.

ITFC continues to explore opportunities for drying other fruits and vegetables such as pineapples, coconut, tomatoes etc.

# Mekane

**Mekane Ltd is on a mission to extract the full value from tropical fruits. Specializing in drying, juicing, and transforming mangoes and other tropical fruits, Mekane Ltd serves both local and international markets**

Founded in 2023, Mekane Ltd is a female-owned Ghanaian agro-processing company that focuses on the production of dried fruits and juices/pulp. By transforming fresh fruits into dried snacks, the company caters to the growing demand for healthy snacks, reduces post-harvest losses for farmers, creates jobs for women and youth, and offers consumers a variety of healthy lifestyle options.

In line with its “circular fruit economy” model, Mekane Ltd strives to minimize waste.

In addition to producing dried fruits and juices, the company is experimenting with seed oils extracted from fruit kernels. Furthermore, fruit waste is directed towards the local animal husbandry sector or used to create compost, which helps grow and sustain more healthy fruit trees.

# Ohumpong Investments

**Ohumpong Investments Co Ltd is a processing factory, processing mangoes into dry mango chips. The factory is located in Kintampo of the Bono east region of Ghana.**

Kintampo is a major mango producing zone in Ghana which produces more than 30% of the mangoes produced in Ghana. The quality of fruits in Kintampo stands out because of it's natural flavour.

Ohumpong allows mangoes to mature before we harvest them, we allow it to ripe by itself. That is what makes our dried mangoes so sweet and colourful. Our mango chips have a bright natural mango colour, with a strong mango aroma and taste. The fruit does not travel long distance before processing, making the end product nice and soft.

Ohumpong has its own 500 acre mango plantation. Apart from adding value to our mangoes we also sell mango to other processors in the CBI Dried Fruits programme, ie Pure and Just and Agropal.

Ohumpong has a dedicated team that makes sure our fruits meet the GLOBAL GAP standard. The factory also works with the Food and Drugs Authority in Ghana to produce quality mango chips.

## Quarcoo Initiatives (Quin Organics)

**Quarcoo Initiatives Company (Quin Organics) is a Ghanaian owned company that is certified organic with its farmer based organisations. The company provides both technical assistance and trainings for the farmer based organisations to ensure the production of high quality fruits.**

With sustainability at heart, the company ensures that its processes focus on environmental, economic and social sustainability. Quin Organics implements a "zero waste" policy, to ensure a circular economy in our operations.

Quin Organics provides a wider diversity of organic certified products than many of its competitors, offering its customers a unique blend of authentic products. The rich soils and favorable climate in Ghana, combined with good agronomic practices employed on our farms, ensure safe tropical fruits with great exotic taste and flavor. Quin Organics provides Pure Citrus Goodness.

Elevate your wellness routine with our Triple Citrus Peels Blend- a vibrant mix of orange, lemon and lime peels, gently dried and ground for maximum flavor and nutrients. Perfect for herbal teas, zesty cooking, or daily detox. Sustainably made from real fruit peels. Zero waste, all zest.

# Ghana Export Promotion Authority

**The Ghana Export Promotion Authority (GEPA) serves as the National Trade Support Institution dedicated to facilitating the development and promotion of exports from Ghana.**

As an agency under the Ministry of Trade and Industry, GEPA is committed to diversifying Ghana's export portfolio, shifting focus from traditional products to non- traditional ones. To achieve its mandate, GEPA engages in various activities, including product development, market diversification, and research, while also delivering essential information to stakeholders.

Collaboration is key, as GEPA works closely with exporters, Ghana Missions abroad, foreign missions in Ghana, and various government institutions such as the Ghana Exim Bank and the Ghana Investment Promotion Center. Additionally, partnerships with international organizations like CBI, ITC, GiZ, and USAID enhance the capacity- building efforts for exporters and potential exporters, ensuring a robust export environment for Ghana.
